naturaDur
MATT SURFACE FINISH

New: Parquet surface finish naturaDur

Beautiful and matt just like
a natural oil surface finish,
easy to maintain and
as durable as a lacquer finish.

An oiled, matt parquet surface finish makes rooms look more elegant and creates an incomparably comfortable atmosphere as well as a unique natural feel. However, these noble surfaces have long been considered very maintenance-intensive and sensitive, which is why they were not considered as a really practical option for many parquet enthusiasts. With the surface finish innovation naturaDur, such worries are a thing of the past. This newly developed finish achieves the long-desired symbiosis of a matt oiled wood surface with the durability and easy maintenance of pre-finished lacquered parquet flooring.

True beauty can be so easy to maintain: surfaces treated with naturaDur keep their silky matt look and authentic, pleasant feel for many years. Sanding and oiling is not necessary.

NATURADUR MAKES THE MAINTENANCE OF PARQUET AN EASY TASK

To keep the beauty and appeal of your naturaDur Parquet Floor, only the most simple care is necessary. With normal wear and tear it is sufficient to clean the floor with a mop, vacuum cleaner or parquet brush. **MORE STUBBORN DIRT CAN BE REMOVED WITH A FLAT WET MOP.** Ideally, you can also use this cleaning process to maintain and refresh the surface with a lasting effect by using the care products of the HARO clean & green series. Simply clean with HARO clean & green natural and, if required, carry out a thorough basic cleaning with clean & green active.

A bouquet of yellow roses is placed on a light-colored wooden surface. The roses are in various stages of bloom, with some showing a slight pinkish tint. The wooden surface has a prominent vertical grain pattern. The lighting is soft, creating gentle shadows and highlights on the petals and wood. The overall mood is elegant and natural.

MATT SURFACE FINISH

naturaDur Product range

Exclusive wood types
and trendy formats
harmonise with the
velvety matt
naturaDur surface finish

In order to make the selection of your naturaDur dream parquet easier for you, we have structured our product range very clearly. Here – as always at HARO – you can find our most trendy wood types in the expressive formats Plank 1-Strip (in Markant and Sauvage grading) and Longstrip. Beside the classic shades, the colour spectrum also includes very light and dark wood types full of character. Thanks to the finish with naturaDur, the brushed surfaces have a particularly vivid and natural appeal, but are just as protected as with pre-finished parquet. This way, your parquet remains beautiful for many years without having to spend time and energy on maintenance.
